

REMARKS

Claims 1-31 are pending in the application.

Applicants noted that an erroneous Listing of Claims was submitted with the Reply and Amendment filed on July 6, 2004. This erroneous Listing of Claims did not accurately reflect the amendments of the claims made in the Reply and Amendment filed on January 5, 2004. In particular, the erroneous Listing of Claims did not reflect the claim language that was deleted from claims 1, 15, and 29. Claim 1 as set forth below illustrates the claim language that should have been removed from but still appeared in the erroneous Listing of Claims.

1. **(Previously Presented)** A method for processing requests from a client for electronic documents located at a server, the method comprising the computer-implemented steps of:
 - receiving, by an intermediary disposed between the client and the server, a request from ~~a user~~ the client for an electronic document located at a first address at the server, the request made by a user at the client;
 - retrieving, by the intermediary, the electronic document from the first address;
 - retrieving, by the intermediary, information associated with the user;
 - generating an updated electronic document from the retrieved electronic document, said updated electronic document including ~~that~~ **includes** at least a portion of the information associated with the user;
 - and
 - providing the updated electronic document to the client for the user in response to the request.

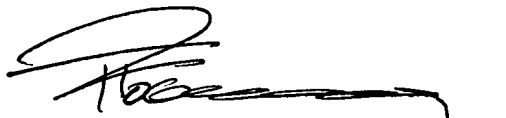

Similar language should have been removed from claims 15 and 29 as well. Applicants submit that this was an oversight without any deceptive intent. Accordingly, Applicants respectfully request that the Examiner replace all prior versions and listings of claims with the above Listing of Claims.

CONCLUSION

If the Examiner believes, for any reason, that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at the number provided.

Dated: July 13, 2004

Respectfully submitted,
